

## "BEGINNINGS" by Enigmatist

The answer to each numbered clue must be paired with that to one lettered clue, providing a hint to one of thirteen items taken from a longer thematic list (wordplay for anagrams etc may be unindicated). When the items are keyed by their numbers, "X" will appear — as, in fact, it did at the start of the first available item on the longer list, also the item keyed by the first picture.

Teams must supply a normal cryptic clue to X.
